

Ransomware : Preventive measures

UMS
UNIVERSITI MALAYSIA SABAH

© JTMK

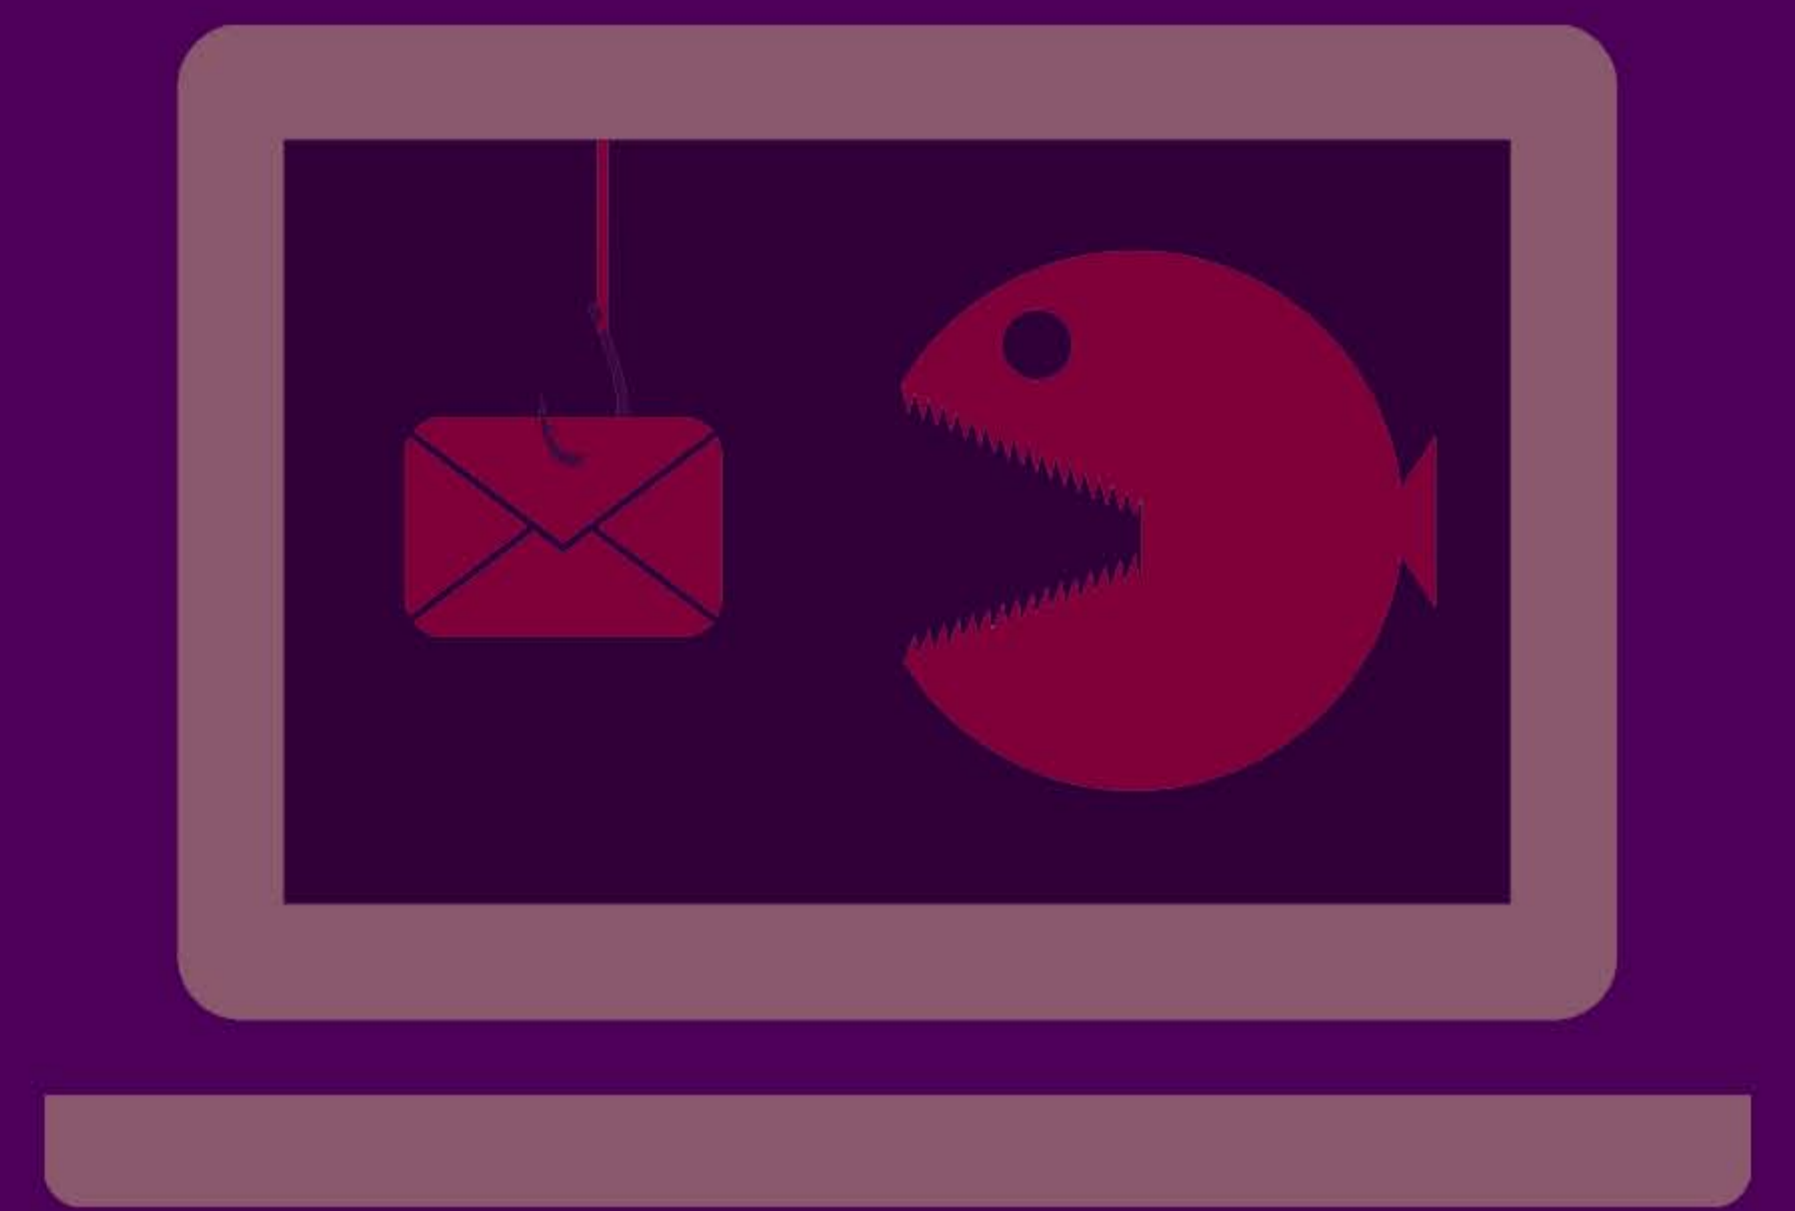

1 Install and update antivirus software.

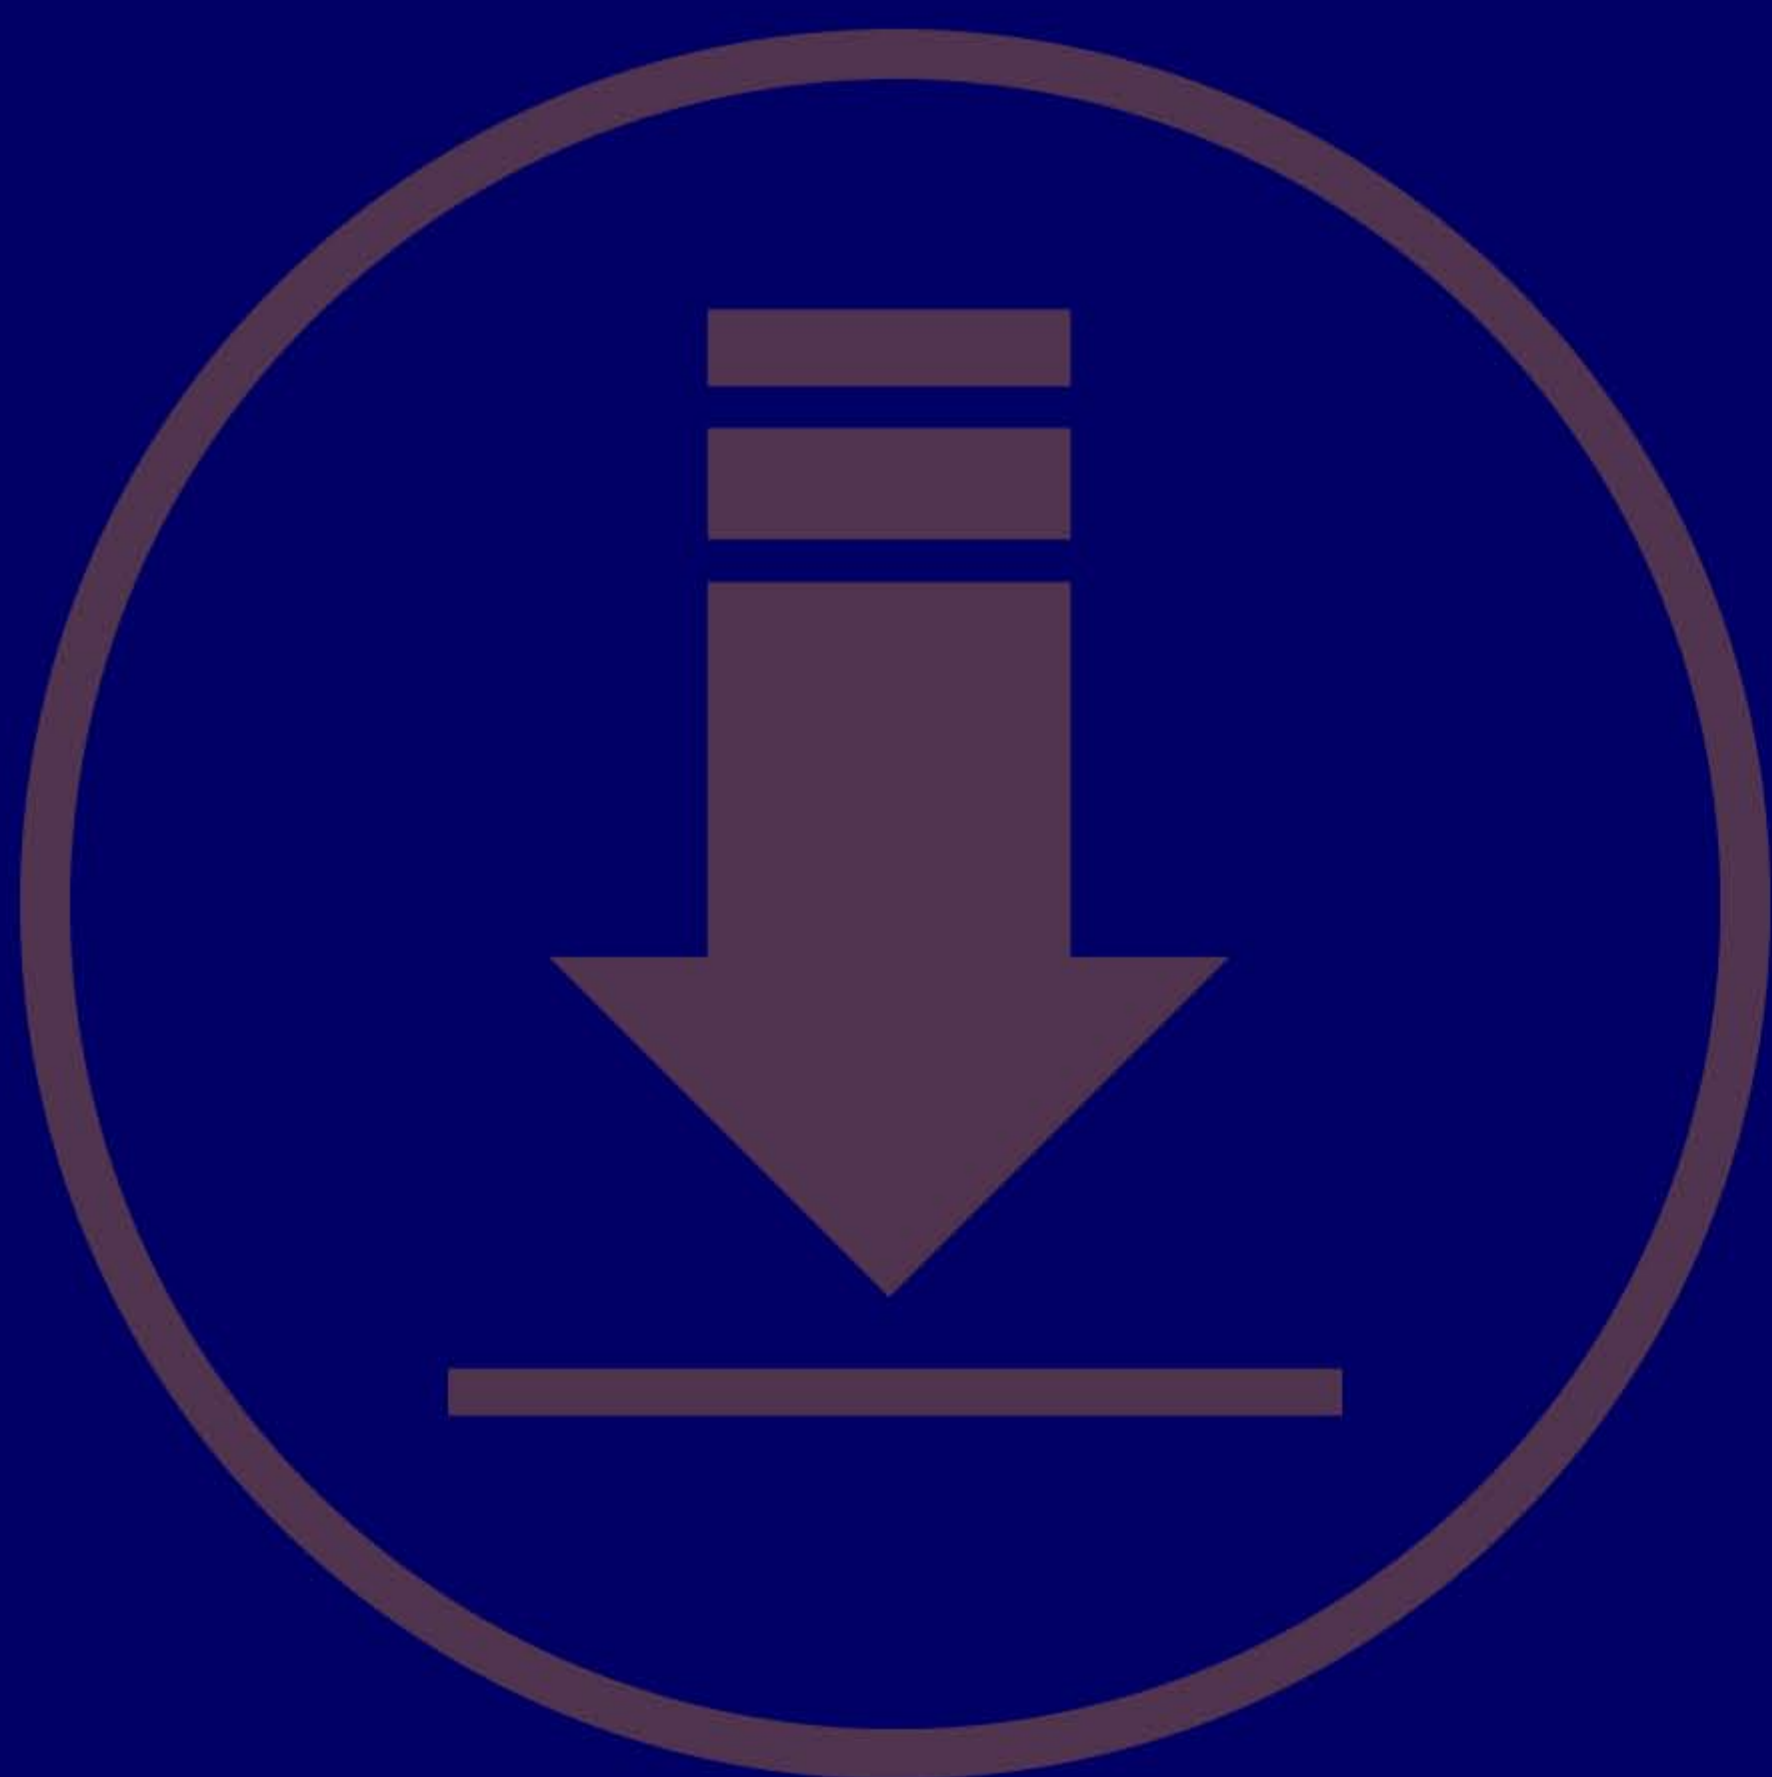

2 Create a duplicate copy or backup of your data to other storage such as Google Drive or thumbdrive.

3 Do not open file attachments received via suspicious e-mail.

4 Be careful when clicking links or downloading files from the website.

5 Make sure the Windows operating system updated with the patch update MS-17-010.

<https://technet.microsoft.com/.../libr.../security/ms17-010.aspx>

6 Set Windows Update automatically on your PC.
